Create an account	Enters correct and valid credentials, then click the Submit button	The Terms and Conditions must pop up		PASSED				
Create an account	Clicks Decline	Redirect to Sign Up page and will not be able to create account		PASSED				

Create an account	Clicks Accept	Account successfully registered		Choose an item.
-------------------	---------------	---------------------------------	---	-----------------

UNIT TEST DOCUMENT		Module Name	LOG IN		
Test Cycle No.	1		Component Name	LOG IN	
Date Tested		Type of System	Web Application		
Pre-conditions	Navigate to User Log In.				
Action Description	Log in to the system.				
Verification Steps	Validates complete credentials and must receive an OTP Code.				
Test Scenario	Data (Input Values)		Expected Results	Actual Results	Remarks
Log In Account	Entered blank credentials		An error message that the fields are required must display		PASSED
Log In Account	Role = Incorrect		An error message “No Doctor with that email found” must pop up		PASSED
Log In Account	Enters correct credentials, then click Log In button		An OTP Code must be sent through email		PASSED
Log In Account	Enter the OTP Code, then click Verify Code button		Successfully logged in and navigates to Home		PASSED

UNIT TEST DOCUMENT		Module Name	LOG IN					
Test Cycle No.	1		FORGOT PASSWORD					
Date Tested		Type of System	Web Application					
Pre-conditions	Clicks Forgot Password							
Action Description	Change the password							
Verification Steps	Must be able to change or reset password							
Test Scenario	Data (Input Values)		Expected Results	Actual Results	Remarks			
Reset Password	Clicks Forgot Password		Display Forgot Password form		PASSED			
Reset Password	Email = Blank		An error message “Email address is required” will appear		PASSED			
Reset password	Role = Incorrect		An error message “No doctor with that email found” must appear		PASSED			
Reset password	Enters correct credentials and clicks Send Reset Instructions button		A message “An email has been sent to [email] with further instructions.” must pop up		PASSED			
Reset password	Clicks Return to Login button		Redirect to Log In page		PASSED			

Open the email	None	Display Reset Password instruction		PASSED
Open the email	Click Reset My Password	Navigates to Create New Password page		PASSED
Create New Password	New Password and Confirm New password not same	An error message “Passwords don’t match” will display		PASSED
Create New Password	Enters correct credentials and click the Reset Password button	A message “Your password has been successfully changed”		PASSED
Go back to Log in Page	Clicks Go to Login button	Navigates to User Log In page		PASSED

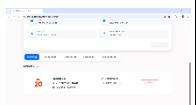

UNIT TEST DOCUMENT		Module Name	HOME					
Test Cycle No.	1		HOME					
Date Tested		Type of System	Web Application					
Pre-conditions	Navigate to Homepage							
Action Description	Select Doctor, Specialty, and Book Service							
Verification Steps	Must be logged in and access the homepage							
Test Scenario	Data (Input Values)		Expected Results	Actual Results	Remarks			
View Medical Specialties	None		Display Medical Specialties		PASSED			
Choose a specific Medical Specialty	None		Navigates to list of doctor/s with the chosen specialty		PASSED			
Choose a specific Doctor	None		Navigates to Doctor's Information (Weekly Schedule, Doctor Profile, Announcement, HMO Accreditation) and be able to Book an Appointment.		PASSED			
Book an Appointment	Fill out the correct details needed and click Next button		Proceeds to Step 2		PASSED			

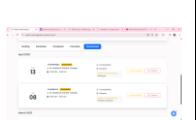

Finalize Information	Click Submit button	A Confirm Appointment will pop up		PASSED
Finalize Information	Click Cancel	No changes		PASSED
Finalize Information	Click Yes, create appointment button	A message "Appointment created successfully" will pop up		PASSED
View Doctor's Profile	Expand the Doctor Profile by clicking the '+' button	Display all Information about Doctor Profile		PASSED
View Announcements	Expand the Announcements by clicking the '+' button	Display Announcements of the Doctor		PASSED
View HMO Accreditation	Expand the HMO Accreditation by clicking the '+' button	Display Doctor's HMO Accreditation		PASSED
View Our Medical Services	None	Display Medical Services		PASSED
Choose specific Medical Service	Click a Service	A Book Service Appointment form will pop up		PASSED
Book Service Appointment	Date not selected	An error message must display		PASSED
Book Service Appointment	Enter valid date and state Primary Concern, then click Submit button	A Confirm Appointment must pop up		PASSED

Confirm Service Appointment	Click Confirm button	Successfully created a service appointment		PASSED
View Our Medical Professionals	None	Display Medical Professionals		PASSED
Choose specific Medical Professional	None	Navigates to Doctor's Information (Weekly Schedule, Doctor Profile, Announcement, HMO Accreditation) and be able to Book an Appointment.		PASSED
Book an Appointment	Fill out with correct details needed and click Next button	Proceeds to Step 2		PASSED
Finalize Information	Click Submit button	A Confirm Appointment must pop up		PASSED
Finalize Information	Click Cancel	No changes		PASSED
Finalize Information	Click Yes, create appointment button	Successfully created an Appointment		PASSED
View Doctor's Profile	Expand the Doctor Profile by clicking the '+' button	Display all Information about Doctor Profile		PASSED

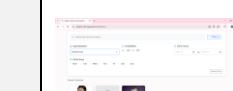

View Announcements	Expand the Announcements by clicking the '+' button	Display Announcements of the Doctor		PASSED
View HMO Accreditation	Expand the HMO Accreditation by clicking the '+' button	Display Doctor's HMO Accreditation		PASSED

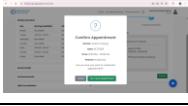

UNIT TEST DOCUMENT		Module Name	CHAT
Test Cycle No.	1		Component Name
Date Tested		Type of System	Web Application
Pre-conditions		Open chat	
Action Description		Send chat	
Verification Steps		Must be able to send and receive chat	
Test Scenario	Data (Input Values)	Expected Results	Actual Results
Open Chat	Click chat icon	The chat window for Medical Staff must display	
Send a Chat	Type a message, then click Send icon	The message must be sent	
View Medical Staff's reply	None	Must be able to receive the reply	

UNIT TEST DOCUMENT		Module Name	MY APPOINTMENTS							
Test Cycle No.	1		Component Name	MY APPOINTMENTS						
Date Tested		Type of System	Web Application							
Pre-conditions	Navigate to My Appointments									
Action Description	View and track All Appointments									
Verification Steps	Must be able to display appointments, cancel appointments, and reschedule appointments									
Test Scenario	Data (Input Values)		Expected Results	Actual Results	Remarks					
Track Appointments	None		Display Appointment Progress		PASSED					
View Pending Appointments	Clicks Pending		Display Pending Appointments		PASSED					
Cancel Pending Appointments	Clicks Cancel button		A Cancel Appointment confirmation will pop up		PASSED					
Cancel Pending Appointments	State the reason for cancellation then click Confirm Cancellation		The appointment will be cancelled, and it will appear as "Cancelled" in the Appointment Progress.		PASSED					
View scheduled appointments	Clicks Scheduled		Display Scheduled Appointments		PASSED

View Immunization Records	Click My Immunizations	Display Immunization Records		PASSED		
View Laboratory Results	Click Laboratory Results	Display Laboratory Results		PASSED		
View Details of Laboratory Result	Click View Details button	Display Document Information and Actions		PASSED		

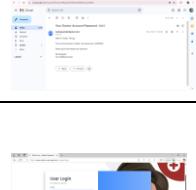

View Laboratory Result	Click View Document button	Opens the Document in another tab		PASSED
Download Laboratory Result	Click Download Document button	The Laboratory Result document will be downloaded		PASSED

UNIT TEST DOCUMENT		Module Name	ACCOUNT INFORMATION			
Test Cycle No.	1		Component Name	ACTIVITY LOG		
Date Tested		Type of System	Web Application			
Pre-conditions	Navigate to Activity Logs.					
Action Description	View Activity Log.					
Verification Steps	Must update real-time.					
Test Scenario	Data (Input Values)		Expected Results	Actual Results		
View Activity Log	Click Activity Log		Display all the Activity Logs			
Search Activities	Type an activity in the search box		Display the Activities			
Filter by Activity	Choose from dropdown		Display the Activities			
Filter by Days	Choose from dropdown		Display the Activities			

UNIT TEST DOCUMENT		Module Name	NOTIFICATIONS							
Test Cycle No.	1		Component Name	NOTIFICATIONS						
Date Tested		Type of System	Web Application							
Pre-conditions	Receive Notifications									
Action Description	View notifications									
Verification Steps	Must be able to receive and open notifications									
Test Scenario	Data (Input Values)		Expected Results	Actual Results	Remarks					
View Notification	Clicks the bell icon		Display notifications		PASSED					
View Notification	Click a specific notification		Display selected notification and navigates to its page		PASSED					

UNIT TEST DOCUMENT		Module Name	LOG OUT							
Test Cycle No.	1		Component Name	LOG OUT						
Date Tested		Type of System	Web Application							
Pre-conditions	Must be logged in to the system									
Action Description	Log out account									
Verification Steps	Must be able to log out and end session									
Test Scenario	Data (Input Values)		Expected Results	Actual Results	Remarks					
Log out Account	Click Log Out button		A confirmation “Are you sure you want to logout?” must pop up		PASSED					
Log out Account	Click No, I'm staying		Account must not log out		PASSED					
Log out Account	Click Yes, Log out		Successfully log out and redirects to User Log In		PASSED					

UNIT TEST: DOCTOR (WEB)

UNIT TEST DOCUMENT		Module Name	LOG IN MODULE							
Test Cycle No.	1		Component Name	LOG IN						
Date Tested		Type of System	Web Application							
Pre-conditions	Navigate to Log In									
Action Description	Log in to the system									
Verification Steps	Must be able to successfully Log in									
Test Scenario	Data (Input Values)		Expected Results	Actual Results	Remarks					
Open the Email	Receive Temporary Password		Display temporary password		PASSED					
Log In Account	Entered blank credentials		An error message that the fields are required will display		PASSED					
Log In Account	Role = Incorrect		An error message “No Patient with that email found” will pop up		PASSED					
Log In Account	Enters correct credentials, then click Log In button		An Update Your Password form will pop up		PASSED					
Log In Account	Click Cancel		System will not allow to proceed		PASSED					

Log In Account	Click Update Password	Navigate to Enter OTP Code		PASSED
Enter the OTP Code	OTP Code, then click Verify Code button	Successfully logged in and navigates to Dashboard		PASSED

UNIT TEST DOCUMENT		Module Name	LOGIN					
Test Cycle No.	1		FORGOT PASSWORD					
Date Tested		Type of System	Web Application					
Pre-conditions	Clicks Forgot Password							
Action Description	Change the password							
Verification Steps	Must be able to change or reset password							
Test Scenario	Data (Input Values)		Expected Results	Actual Results	Remarks			
Reset Password	Clicks Forgot Password		Display Forgot Password form		PASSED			
Reset Password	Email = Blank		An error message “Email address is required” will appear		PASSED			
Reset password	Role = Incorrect		An error message “No patient with that email found” will appear		PASSED			
Reset password	Enters correct credentials and clicks Send Reset Instructions button		A message “An email has been sent to [email here] with further instructions.” will pop up		PASSED			
Reset password	Clicks Return to Login button		Redirect to Log In page		PASSED			

Open the email	None	Display Reset Password instruction		PASSED
Open the email	Clicks the link on the email	Navigates to Create New Password page		PASSED
Create New Password	New Password and Confirm New password not same	An error message “Passwords don’t match” will display		PASSED
Create New Password	Enters correct credentials and click the Reset Password button	A message “Your password has been successfully changed”		PASSED
Go back to Log in Page	Clicks Go to Login button	Navigates to User Log In page		PASSED

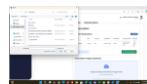

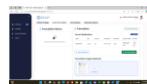

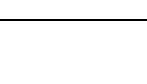

UNIT TEST DOCUMENT		Module Name	DASHBOARD			
Test Cycle No.	1		DASHBOARD			
Date Tested		Type of System	Web Application			
Pre-conditions	Navigate to Dashboard					
Action Description	Must view status (Today's, Pending, Upcoming, Completed) and be able to create announcements					
Verification Steps	Must be able to display status (Today's, Pending, Upcoming, Completed) and create announcements					
Test Scenario	Data (Input Values)		Expected Results	Actual Results		
View Status	None		Display Status			
Create Announcement	Click Post		Create Announcement form will display			
Create Announcement	Click Cancel		No changes			
Create Announcement	Enter the information needed, then click Publish		The Announcement must be posted			
Edit Announcement	Click the three dots on the post		An option of Edit or Delete must appear			
Edit Announcement	Click Edit Post		The Update Post must pop up			
Edit Announcement	Click Cancel		No changes			
Edit Announcement	Enter needed to update, click update button		The post will be updated			

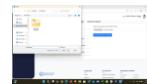

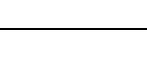

Delete Announcement	Click Delete	A confirmation “Are you sure you want to delete this post? This cannot be undone.” Will pop up		PASSED
Delete Announcement	Click Cancel	No changes		PASSED
Delete Announcement	Click Yes, delete it!	A message “Your post has been deleted” will appear		PASSED

UNIT TEST DOCUMENT		Module Name	MY PATIENT MODULE					
Test Cycle No.	1		Component Name		UPCOMING APPOINTMENTS			
Date Tested		Type of System	Web Application					
Pre-conditions	Navigate to Upcoming Appointments							
Action Description	Manage Upcoming Appointments							
Verification Steps	Must be able to make changes in Upcoming Appointment							
Test Scenario	Data (Input Values)		Expected Results	Actual Results	Remarks			
View My Patient	None		Navigates to Today's Appointments		PASSED			
View Upcoming Appointments	Clicks Upcoming		Display Upcoming Appointments		PASSED			
Reschedule Upcoming Appointments	Clicks Reschedule		Reschedule Appointment form must appear		PASSED			
Reschedule Upcoming Appointments	State the reason for rescheduling, click Confirm Reschedule		The Appointment has been rescheduled		Choose an item.			

UNIT TEST DOCUMENT		Module Name	MY PATIENT MODULE		
Test Cycle No.	1		TODAY'S APPOINTMENT		
Date Tested		Type of System	Web Application		
Pre-conditions	Navigate to Today's Appointment				
Action Description	Manage Today's Appointment				
Verification Steps	Must be able to make changes in Today's Appointment				
Test Scenario	Data (Input Values)		Expected Results	Actual Results	Remarks
View Today's Appointments	Clicks Today's		Display Today's Appointments		PASSED
Change Appointment status to Ongoing	Click Ongoing		A confirmation “Are you sure you want to mark this appointment as Ongoing?” will pop up		PASSED
Change Appointment status to Ongoing	Click No		No changes		PASSED
Change Appointment status to Ongoing	Click Yes		A message “Appointment status updated to Ongoing” will pop up		PASSED

UNIT TEST DOCUMENT		Module Name	MY PATIENT MODULE			
Test Cycle No.	1		ONGOING APPOINTMENT			
Date Tested	04/17/2025	Type of System	Web Application			
Pre-conditions	Navigate to Ongoing Appointment					
Action Description	Manage Ongoing Appointment					
Verification Steps	Must be able to make changes in Ongoing Appointment					
Test Scenario	Data (Input Values)	Expected Results	Actual Results	Remarks		
View Ongoing Appointments	Click Ongoing	Display Ongoing Appointments		PASSED		
Manage Patient	Click PX Management	Navigates Patient Findings		PASSED		
Add Patient Findings	Provide the needed details and information, and click Save Findings	The findings must be saved and reflect on Patient History		PASSED		
Create Prescription	Click Create Prescription	Navigates to Prescription		PASSED		
Create Prescription	Click Add Your First Medication	Add New Medication Form must appear		PASSED		
Create Prescription	Enters blank Credentials	An error message that the fields are required will appear		PASSED		

Create Prescription	Enters complete credentials and click Add to Prescription	Medication must be added		PASSED
Create Prescription	Click Add Prescription Image	File explorer must pop up		PASSED
Create Prescription	Open an Image	The image must be attached		PASSED
Edit Prescription	Click Edit icon	Allows to edit the prescription		PASSED
Delete Prescription	Click Delete icon	The medication must be deleted		PASSED
Print Prescription	Click Print Prescription	Print Preview must pop up		PASSED
Create Immunization	Entered blank	An error message that the fields are required must appear		PASSED
Create Immunization	Fill out all the details needed and click Add Immunization	A message "Immunization created successfully" will appear		PASSED
Edit Immunization	Click Edit icon	Allows to edit Immunization		PASSED

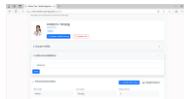

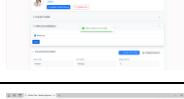

Edit Immunization	Click Update Immunization	A message “Immunization updated successfully”		PASSED
Delete Immunization	Click Delete icon	Then the immunization will be deleted		PASSED
View Laboratory Result	Click Laboratory Results	Display Past Laboratories		PASSED

Log out Account	Click Log Out button		A confirmation “Are you sure you want to logout?” must pop up		PASSED					
Log out Account	Click No, I'm staying		Account must not log out		PASSED					
Log out Account	Click Yes, Log out		Successfully log out and redirects to User Log In		PASSED					

UNIT TEST: MEDICAL SECRETARY (WEB)

UNIT TEST DOCUMENT		Module Name	LOG IN							
Test Cycle No.	1		Component Name	LOG IN						
Date Tested		Type of System	Web Application							
Pre-conditions	Navigate to Staff Log In									
Action Description	Log in to the system									
Verification Steps	Must be able to successfully Log in									
Test Scenario	Data (Input Values)		Expected Results	Actual Results	Remarks					
Log In Account	Click Log In button from Landing Page		Navigate to User Log In		PASSED					
Log In Account	Click Staff Sign In button		Staff Log In form will appear		PASSED					
Log In Account	Blank credentials		An error message “Please fill out this field” will appear		Choose an item.					
Log In Account	Email = Invalid		An error message “Please include ‘@’ in the email address” will appear		PASSED					
Log In Account	Incorrect credentials		An error must pop up		PASSED					
Log In Account	Enter correct credentials, then click Log In button		Navigate to Enter OTP Code		PASSED					

Open the Email	None	Receive OTP Code		PASSED
Log In Account	Enter Code, then click “Verify Code”	Successfully logged in and navigate to Dashboard		PASSED

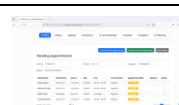

UNIT TEST DOCUMENT		Module Name	DASHBOARD					
Test Cycle No.	1		DASHBOARD					
Date Tested		Type of System	Web Application					
Pre-conditions	Navigate to Dashboard							
Action Description	View patient statistic, Appointment Statuses, Completed Appointments by Month, Appointment Calendar, must be able to share news, approve or reject Appointment Deactivation Request							
Verification Steps	Statistics and charts must display correct data. Must be able to successfully share news, approve or reject Appointment Deactivation Request							
Test Scenario	Data (Input Values)	Expected Results	Actual Results	Remarks				
View Dashboard	None	Display Patient statistics, Appointment Statuses Chart, and Completed Appointments by Month		PASSED				
View Dashboard	None	Display Doctor Availability Change Logs		PASSED				
View Dashboard	None	Display Appointment Calendar, Share News, Deactivation Requests		PASSED				
Print Appointment Statuses	Click Print Report button	The Appointment Statuses must open to new tab and downloaded		PASSED				

Filter Completed Appointments	Click Show Filters	Time Range must appear		PASSED
Filter Completed Appointments	Click specific Time Range	Must reflect on the graph		PASSED
Print Completed Appointments	Click Print Report	The Completed Appointments must open to new tab and downloaded		PASSED
View Doctor Availability Change Logs	None	Display Doctor Availability Change Logs		PASSED
View Doctor Availability Change Logs Details	Click Details button	Schedule Change Details must pop up		PASSED
Print Doctor Availability Change Logs Details	Click Print Report button	Must open to new tab.		PASSED
Print Doctor Availability Change Record	Click print icon	Must open to new tab.		PASSED
Share News	Click type box	The Create News Article form must pop up		PASSED
Share News	Click Cancel	No changes		PASSED
Share News	Blank	An error message must display		PASSED
Share News	Click Publish News	A confirmation “Are you sure you want to publish this news article?” must pop up		PASSED

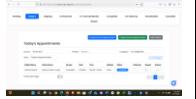

Share News	Click No, review again	Allows to review		PASSED
Share News	Click Yes, publish it!	A message “News article published successfully” must display		PASSED
Approve Appointment Deactivation Request	Click Approve button	A confirmation “The doctor will be marked as unavailable on the selected dates.” Must pop up		PASSED
Approve Appointment Deactivation Request	Click Cancel	No changes		PASSED
Approve Appointment Deactivation Request	Click Yes, approve	A message “Deactivation request approved” must pop up		PASSED
Reject Appointment Deactivation Request	Click Reject	A message “The doctor will remain available for appointments.” Must pop up		PASSED
Reject Appointment Deactivation Request	Click Cancel	No changes		PASSED
Reject Appointment Deactivation Request	Click Yes, reject	A message “Deactivation request rejected”		PASSED

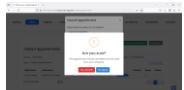

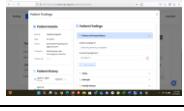

UNIT TEST DOCUMENT		Module Name	CHAT					
Test Cycle No.	1		CHAT					
Date Tested		Type of System	Web Application					
Pre-conditions	Open chat							
Action Description	Send chat							
Verification Steps	Must be able to send and receive chat							
Test Scenario	Data (Input Values)		Expected Results	Actual Results	Remarks			
Open Chat	Click chat icon		The chat window must display		PASSED			
Search a patient	Search patient name		Specific patient will be searched		PASSED			
Send a Chat	Choose a patient		Chat box for the patient must appear		PASSED			
Send a Chat	Type a message, then click Send icon		The message must be sent		PASSED			
View Patient reply	None		Must be able to receive the reply		PASSED			

UNIT TEST DOCUMENT		Module Name	APPOINTMENTS		
Test Cycle No.	1		Component Name	PENDING APPOINTMENTS	
Date Tested		Type of System	Web Application		
Pre-conditions	Navigate to Pending Appointments				
Action Description	Manage Pending Appointments				
Verification Steps	Must be able to change statuses of Pending Appointments				
Test Scenario	Data (Input Values)		Expected Results	Actual Results	Remarks
View Pending Appointments	None		Display Pending Appointment s		PASSED
Assign Details	In actions, click Assign Details		An Assign Appointment must pop up		PASSED
Assign Details	Click Cancel button		No changes		PASSED
Assign Details	Enter the needed details, then click Assign Appointment		A confirmation “Are you sure you want to assign this appointment to: (Specific Service, Doctor, Date, Time)”		PASSED
Assign Details	Clicked unavailable date		Prompt Date Unavailable		
Assign Details	Click Cancel button		No changes		PASSED

Assign Details	Click Yes, assign it! button	A message “The appointment has been successfully assigned” will pop up		PASSED
Schedule Appointment	Click Scheduled	A confirmation “Are you sure you want to change this appointment status to scheduled?” will pop up		PASSED
Cancel Schedule Appointment	Click Cancel button	No changes		PASSED
Schedule Appointment	Click Yes, update status button	A message “Appointment status updated to Scheduled” will pop up		PASSED
Reschedule Appointment	Click Reschedule	Reschedule Appointment will pop up		PASSED
Reschedule Appointment	Click Close	No changes		PASSED
Reschedule Appointment	State reason for rescheduling and click Confirm Reschedule	A message “Appointment Scheduled successfully”		Choose an item.
Cancel Appointment	Click Cancel	A Cancel Appointment form must display		PASSED
Cancel Appointment	Click Close	No changes		PASSED

Cancel Appointment	State the reason for cancellation, then click Confirm Cancellation button	A message “Appointment has been cancelled” will pop up		PASSED
--------------------	---	--	---	--------

UNIT TEST DOCUMENT		Module Name	APPOINTMENTS			
Test Cycle No.	1		TODAY'S APPOINTMENTS			
Date Tested		Type of System	Web Application			
Pre-conditions	Navigate to Today's Appointments					
Action Description	Manage Today's Appointments					
Verification Steps	Must be able to change statuses of Today's Appointments					
Test Scenario	Data (Input Values)		Expected Results	Actual Results		
Set Appointment to Ongoing	Click Ongoing		A confirmation “Are you sure you want to change this appointment status to Ongoing?” will pop up			
Set Appointment to Ongoing	Click Cancel button		No changes			
Set Appointment to Ongoing	Click Yes, update status button		A message “Appointment status updated to Ongoing” will pop up
